

# FMR SWEEP UNIK

INNOVATION FOR GROWTH.

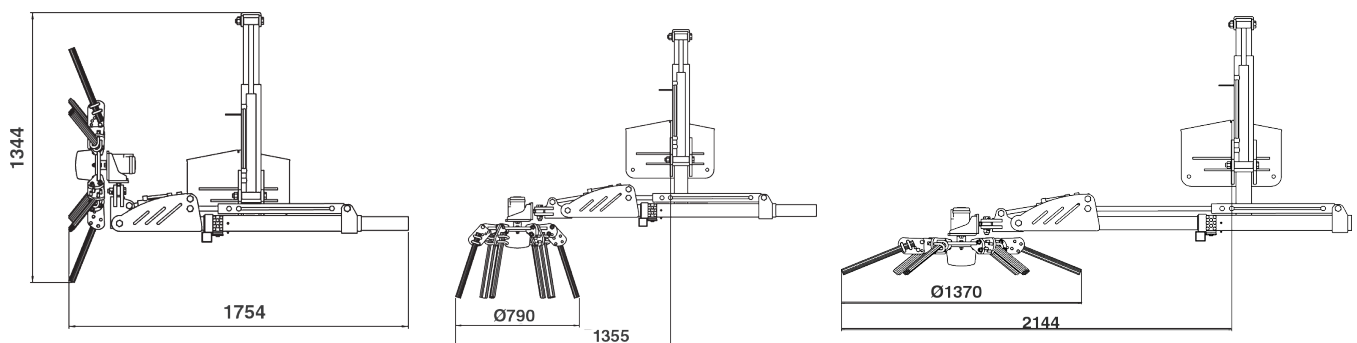

# FMR SWEEP UNIK

The Sweep Unik is a great choice for a clean sweep in the orchard or vineyard. Hydraulic adjustment of height and sweeper head angle plus optional width control makes the Unik easy to use and the speed adjustable rotor fitted with rubber flaps or nylatron brushes provides a great result regardless of the size or weight of material you need to sweep. The easy to attach ERO mounting system will have the Unik on your tractor and working quickly.

## STANDARD EQUIPMENT AND FEATURES:

- Single sweeper head with either nylon fingers or rubber flaps
- Mounts to tractor with ERO quick attach mount system
- Adjustable height storage stand makes attachment & removal from tractor simple & easy
- Standard with manual hydraulic control with 5 levers with flow adjustment to sweeper heads
- 1 set of double acting hydraulics required
- 2 x hydraulic adjustments - height of total machine and angle of sweeping head
- Shearbolt safety system on sweeper heads
- Optional extras:
  - Width adjustment of the sweeper arm (requires extra double acting hydraulic connection or electric controller)
  - Electric controller in cab (replaces manual hydraulic levers)
